

ACCOUNTING FOUNDATIONS GRADUATE CREDIT CERTIFICATE PROGRAM

Learning Outcomes

1. Communication Skills –The ability to formulate and articulate business ideas individually and collaboratively via print, presentations, and interpersonal interactions. Students will demonstrate effective oral, written and interpersonal communication skills while using technology appropriately in a professional business presentation.
2. Problem Solving/Critical Thinking –The ability to demonstrate problem solving skills using analytical techniques, and adequately address open-ended/unstructured problems with no single correct solution.
3. Data Summarization and Analysis –Select and deploy appropriate data analysis schemes to arrive at reasoned recommendations.
