

DEMOGRAPHY

Admission Requirements

Requirements listed here are in addition to requirements listed in GCAC-208 Dual-Title Graduate Degree Programs (<https://gradschool.psu.edu/graduate-education-policies/gcac/gcac-200/gcac-208-dual-titles/>).

To pursue a dual-title degree in Demography, the student must apply to the Graduate School and be admitted to a participating graduate program.

Students applying for admission to the dual-title in Demography must apply and be admitted to the Demography dual-title program prior to taking a qualifying exam with Demography content.

The formal application requires students to declare their specific demographic research interests, state how a graduate degree in demography relates to their academic and professional goals, and provide the application materials they submitted to their primary program for graduate student admission. Applicants must provide a positive recommendation from a Demography Graduate Faculty member in their graduate primary program.
