

GLOBAL ECONOMIC AND BUSINESS RELATIONS

Learning Outcomes

1. **KNOW:** Identify major components and actors in the international system and global economy.
2. **APPLY/CREATE:** Gather and analyze bodies of data and test hypotheses to enable students to evaluate policies related to global economic and business interactions.
3. **THINK:** Analyze complex data structures common to real-world issues including panel, multi-level, categorical, and time series data.
4. **COMMUNICATE:** Clearly articulate findings from quantitative analyses in both oral and written formats.
5. **PROFESSIONAL PRACTICE:** Display ethical decision making and sensitivity to cultural difference when analyzing an international problem.
