

TRANSDISCIPLINARY RESEARCH ON ENVIRONMENT AND SOCIETY

Admission Requirements

To pursue a dual-title intercollege degree under this program, the student must first apply and be admitted through one of the existing graduate programs that offers the dual-title degree in TREES:

- Anthropology
- Architecture
- Education, Development, and Community Engagement
- Education Policy and Leadership
- Educational Theory and Policy
- Energy and Mineral Engineering
- Forest Resources
- Geography
- Landscape Architecture
- Recreation, Park and Tourism Management
- Rural Sociology
- Soil Science

Once enrolled in their home degree program, the student can apply to the Admissions Committee of TREES. The TREES admissions committee reviews applications and recommends students for admission to the dual-title degree program to The Graduate School. TREES admission requirements include:

1. a minimum baccalaureate Jr/Sr grade point average of 3.0 out of a 4.0 scale;
2. a statement of professional goals, natural resource management philosophy, and reasons for applying to the program; and
3. a letter of support from the student's doctoral advisor acknowledging the TREES dual title program's requirements and their individual and departmental support of the student's participation in the program.

Doctoral students must be admitted into the dual-title degree program in TREES no later than the end of the fourth semester (not counting summer semesters) of entry into the graduate major program.
