

ANIMAL SCIENCE, B.S.

Seven Penn State campuses are scheduled for closure after Spring 2027: DuBois, Fayette, New Kensington, Mont Alto, Shenango, Wilkes-Barre, and York. New students are not being admitted at these campuses.

Begin Campus: Any Penn State Campus

End Campus: University Park

Program Learning Objectives

- **Animal Agriculture Issues:** Actively and effectively discuss complex animal agriculture issues including:
 - The economic, environmental, animal welfare and societal impacts of animal production at both local and global levels.
 - The role of science in informing debates in animal agriculture.
- **Scientific Literature and Resources:** Locate, critically evaluate, and apply information related to animal science from scientific literature and other resources.
- **Communication:** Communicate effectively and professionally with a variety of audiences in both written and oral formats.
- **Comprehensive Knowledge:** Apply comprehensive knowledge from areas in animal science including genetics, reproduction, behavior, nutrition, animal products, husbandry and business/farm management.
