

ENERGY FINANCE, CERTIFICATE

Requirements for an undergraduate certificate may be completed at any campus location offering the specified courses for the certificate.

Program Description

The Energy Finance certificate program is designed for students who desire to combine their engineering emphasis in energy systems with the financial expertise gained through courses in financial analysis and risk management.

You Might Like This Program If...

You are interested in helping risk managers understand the interrelationships among and between the various industries that make up the global energy marketplace. That marketplace has changed dramatically over the last decade, and the headwinds and challenges now facing the energy industry dictate a distinct type of program.
