

PREMEDICAL-MEDICAL, B.S.

Seven Penn State campuses are scheduled for closure after Spring 2027: DuBois, Fayette, New Kensington, Mont Alto, Shenango, Wilkes-Barre, and York. New students are not being admitted at these campuses.

Begin Campus: University Park

End Campus: University Park

Retention Requirements

PMM students must enroll in and complete least 15 credits in the Fall and Spring semesters. At least 6 credits/semester in science and/or math must be completed each semester until the program's science/math requirements are met. For this program, science courses are defined as ECOS resident instruction* (non-web) courses intended for students in the major degree programs of ECOS.

Students in this program must earn a science/math GPA of at least 3.5 each and every semester. For GPA calculation purposes within our program office, Summer credits will be combined with the Fall semester credits. By the end of the 3rd year, non-science GPA must also be at least 3.5. "D" grades or lower are simply unacceptable in the PMM program and will usually result in dismissal from the program.

PMM students represent a program with rich history at Penn State and Sidney Kimmel Medical College at Thomas Jefferson University with numerous program alumni in prominent positions around the USA. At University Park, PMM students are in a high-profile position within the Penn State community both on- and off-campus. As such, they are expected to demonstrate only the highest levels of academic integrity, professionalism, and civility – to be exemplary citizens of this academic community. Should a PMM student fall short in this regard she/he may be dismissed from the program and not matriculate to SKMC Jefferson by way of the PMM program.
