

BIOBEHAVIORAL HEALTH, B.S. (HEALTH AND HUMAN DEVELOPMENT)

Seven Penn State campuses are scheduled for closure after Spring 2027: DuBois, Fayette, New Kensington, Mont Alto, Shenango, Wilkes-Barre, and York. New students are not being admitted at these campuses.

Begin Campus: Any Penn State Campus

End Campus: University Park, World Campus

Program Learning Objectives

- **Critical Evaluation of Research:** Critically evaluate current empirical research on health and disease, explaining implications and limitations to the lay public.
- **Disparity Mechanisms:** Explain how the fundamental processes underlying health and disease can interact to produce individual differences in health, and health disparities among groups.
- **Ethics:** Understand and apply ethical principles in the conduct of research and professional practice and in the analyses in implementations of health-related policies and programs.
- **Health Factors:** Describe and understand the fundamental biological, behavioral, social, cultural and environmental processes that influence health and disease.
- **Promotion/Prevention:** Plan, implement, and evaluate health promotion/disease prevention programs for diverse populations.
