Career Paths

German is one of the three official working languages of the European Union, and it is the most widely spoken native language in Europe. A degree in German opens up doors to a variety of careers in the US government and military, international business, international relations, international law, human rights, information technology, professional translation, publishing, education, the travel industry, and more. A number of our graduates have been awarded Fulbright and DAAD grants, and some have gone on to pursue graduate degrees in German Studies or related fields (Comparative Literature, Linguistics).
