

COMMUNICATION ARTS AND SCIENCES, B.A. (UNIVERSITY COLLEGE)

Seven Penn State campuses are scheduled for closure after Spring 2027: DuBois, Fayette, New Kensington, Mont Alto, Shenango, Wilkes-Barre, and York. New students are not being admitted at these campuses.

Begin Campus: Any Penn State Campus

End Campus: Brandywine

Program Description

This major helps students better understand and analyze how people communicate in order to influence others and impact the world around them. The ability to communicate effectively in personal, social, professional, and multicultural situations is an essential skill in modern society. Discovering how to improve practices of communication in any of those situations—whether from a humanistic or scientific perspective—is equally vital. Students of Communication Arts and Sciences will therefore learn to argue persuasively, think critically, solve problems collaboratively, understand and manage conflict, influence people ethically, form and keep relationships, and participate constructively in civic life. The flexibility of this program offers preparation for a variety of careers, which include administration, business, health, higher education, human resources, law, public service, social or political advocacy, and more. Such flexibility is illustrated in the fact that this degree offers two different options for completion based on varying instructional and student needs (the Communication Studies option and the Foundations, Scholarship, and Practice option). For these reasons, majoring in Communication Arts and Sciences also offers an excellent concurrent degree program: a substantive understanding of human communication—which is valuable in numerous forms of personal, social, or professional life—can significantly enhance students' preparation in many fields of study.

Two degree options are available for the Communication Arts and Sciences B.A. in order to provide flexibility based on student and faculty needs at different campuses where the degree is offered:

Communication Studies Option

Available at the following campuses: Berks, Brandywine

The B.A. in Communication Arts and Sciences (Communication Studies) provides increased knowledge and skill concerning the practice of human communication across an array of interpersonal, organizational, social, and cultural contexts. Students pursuing the B.A. in this degree option will learn to argue persuasively, think critically, solve problems collaboratively, understand and manage conflict, influence people ethically, form and keep relationships, and participate constructively in civic life. The flexibility of this program offers preparation for a variety of careers, which include administration, business, health, higher education, human resources, law, public service, social or political advocacy, and more. The B.A. in Communication Arts and Sciences (Communication Studies) also offers an excellent concurrent degree program: a substantive understanding of human communication—which is valuable in numerous forms of personal, social, and professional life—can significantly enhance students' preparation in many fields of study.

Foundations, Scholarship, and Practice Option

Available at the following campuses: University Park

The B.A. in Communication Arts and Sciences (Foundations, Scholarship, and Practice) promotes an understanding of fundamental facets of human communication, knowledge of theories and research that illuminate communication processes, and expertise in practical applications of communication research to civic, cultural, family, health, interpersonal, organizational, and social contexts. Students pursuing the B.A. in this degree option will learn to argue persuasively, think critically, solve problems collaboratively, understand and manage conflict, influence people ethically, form and keep relationships, and participate constructively in civic life. The flexibility of this program offers preparation for a variety of careers, which include administration, business, health, higher education, human resources, law, public service, social or political advocacy, and more. The B.A. in Communication Arts and Sciences (Foundations, Scholarship, and Practice) also offers an excellent concurrent degree program: A substantive understanding of human communication—which is valuable in numerous forms of personal, social, or professional life—can significantly enhance students' preparation in many fields of study.

What is Communication Arts and Sciences?

Communication Arts and Sciences (CAS) privileges the study and practice of communication in interpersonal, organizational, public, and intercultural contexts. Using methods and theories that span the humanities and social sciences, faculty and students create knowledge about the history, present state, and prospects of the fact that we can and do influence one another. This major inspires students to be more effective and ethical in the personal, professional, and public roles their futures have in store for them.

You Might Like This Program If...

- You want to learn from award-winning instructors who study human communication from scientific and humanistic perspectives.
- You seek training in areas that employers consistently value in college graduates: communication skills, teamwork, critical thinking, problem-solving, effective writing, and intercultural experience.
- You want to develop important civic skills in dispute resolution, interpersonal dialogue, democratic deliberation, and public debate.
- You seek valuable extracurricular experiences, including speech and debate, study abroad, national honors society, and a welcoming student community.
